Subject: glyphosate drafts - INTERNAL DELIBERATIVE
Attachments: glyphosate_draft SAP charge questions_OCSPP management review.docx; glyphosate_compare redline of revised charge to original charge.docx; DRAFT SAP white paper_OCSPP management review.docx; glyphosate_draft SAP charge questions_8-16-16_ORD.docx

Hello everyone: Please find attached (for close hold – please do not forward) OPPs revised draft assessment and charge questions. A redline/compare version of the original charge compared to the revised charge is attached. I don't have the original OPP main document that was in SharePoint so I didn't make a redline of the changes that OPP made. I also attached a copy (for convenience – most of you already have this) of the comments that we made on the original charge.

The briefing for Tom is currently still scheduled for 11:30 am tomorrow. I am finishing up about 8 factual slides that I will send along as soon as I am done. I am not asking for input on them as I am only using publicly available information in the slides – and I am also running out of time.

We will likely spend the bulk of time tomorrow (only a half hour) focusing on the outcome of our collaboration and any issues that you might have. I'll set something up for a half hour in the morning so that we can discuss before meeting with Tom since we got the materials so very late in the game.
